Car Occupant Injured In Traffic Accident

Ellsworth Riley of Bear Lake, owner of the grocery there, is in Grayling Mercy Hospital suffering from a broken back as the result of a traffic accident on M-72 early Monday morning. Riley who was riding with Carleton Leece, service station operator at Bear Lake, was thrown from Leece's vehicle and critically injured. The small truck ran off the right shoulder of M-72 about one mile west of the US-27 junction on a curve, when it was brought back into the road, it rolled over three times. Sheriff Points Out Two State Laws

As the result of some difficulties on Saturday night, during the Bear Archery Company, Sheriff William F. Golinick today quoted two state laws of the uniform motor vehicle code.

Number one: "Upon the approach of any police or fire department vehicle giving audible signal by bell, siren or exhaust whistle, the driver of every other vehicle shall immediately drive the same into a position as near as possible, and parallel to the right hand edge or curb of the highway, clear of any intersections of highways, and shall stop and remain in such position unless otherwise directed by a police or fire department vehicle shall have passed."

Number two: "It shall be unlawful for the driver of any vehicle other than one on official business to follow any fire apparatus traveling in response to a fire alarm closer than 500 feet or to drive into or park such vehicle within 500 feet where fire apparatus has stopped to answer a fire alarm."

Among those now confined to Grayling Mercy Hospital are Mrs. Frank Roth, William Bromwell, John Hangelman, and Herbert Wilcox.

Bear Archery Begins Big Job Of Cleaning Up Following Fire

Expect To Be At Work In Week

The employees of the Bear Archery Company at Grayling began on Monday morning a tremendous job of cleaning up their fire-wrecked plant after a preliminary start had been made on Sunday by a few of the employees. A start was also made on Sunday towards rewiring the building.

Secretary-Treasurer Charles D. Piper of the Bear Archery Company stated that he believed the company could be back into production within a week or ten days contingent upon the installation of the new electrical carrying equipment.

Damage was set by company officials and insurance company adjusters at between \$50,000 and \$70,000. The biggest share of damage occurred in the arrow department, shipping department and main office.

The fire, whose origin has still not been definitely defined, was first discovered between 9:30 and 9:45 Saturday evening almost simultaneously by William C. Tufts and Jerry McClain, both of whom were driving past. McClain stopped at the Burton McWilliams home across the road from the

James Kumpula Accident Victim

According to word received here by Mr. and Mrs. Wesley Kumpula of Maple Street, the death of their son, Pvt. James Kumpula aboard a troop ship in the Pacific Ocean on August 4, was the result of an accidental discharge of his rifle.

A letter written by Lt. Colonel Harold V. Collins, troop commander of soldiers aboard the U. S. N. Ship E. T. Collins said in part, "I should like to express my deepest sympathy over the recent loss of your son, Private James Wesley Kumpula, whose death occurred on August 4, 1951 aboard this ship as the result of injuries which were incurred by the accidental discharge of his rifle. I knew your son only a few days, having been placed in command of all Army troops aboard the ship a few days before it sailed on August 1. At the beginning of the voyage, your son was given an assignment of responsibility which was carried out cheerfully and efficiently and his performance marked him as an individual who could be depended on to do a fine job. I also learned from his friends and associates that he was a fine soldier and many traits that undoubtedly would have helped him advance and gain for himself a position of responsibility in the world had he lived."

I sincerely hope that the knowledge that your son was an exemplary soldier and died while serving his country will afford you some consolation in your bereavement.

Once again, personally and for the officers and men of this command, please accept our sincere sympathy in your bereavement," signed, Lt. Colonel Harold V. Collins.

According to a later wire received by the Kumpulas, the remains were to arrive on the west coast on September 6. The body will be shipped to an army receiving center at Chicago, and from there directly to Calumet, the Kumpulas hometown, for a military funeral. Services will be held at the Paulson Funeral Home in Calumet with the Rev. Paul Heideman, the family pastor, officiating.

James Wesley Kumpula was born on November 6, 1931 at L'Anse in the Upper Peninsula. He attended Grayling Schools but was transferred to Mackinac Island in June of 1950. He attended Alma College for a short time that fall but then enlisted in the armed services.

Writing in sympathy to the bereaved parents, Principal W. Earl Holman of Jackson High School, said in part: "You perhaps can get some consolation and comfort in knowing that you had raised a son to manhood who was not only a gifted person, intellectually, musically and in many other ways but a fellow of good will, of fine character, one who was always polite and cultured, one who was sensitive and alert to the needs of his fellow man. As you know, I became well acquainted with Jim, and in that association became very fond of him. We at Jackson High School were proud to graduate him from this school and we mourn his untimely death."

MT. HOPE LUTHERAN CHURCH NOTES

Members please notice there will be no church service until September 30th as Rev. Claus is on vacation.

plant and McClain accompanied by McWilliams crossed to investigate. Upon their return, they phoned in a fire call. Tufts drove back into Grayling to turn in the alarm.

The Grayling Fire Department answered the call in a very short space of time and were then hindered by a hose leak. Two fire trucks from Camp Grayling and one from the Grayling MacNamara Air Base also answered the alarm and their aid enabled the fire fighters to finally beat down the blaze. The department worked very hard to bring the stubborn blaze under control.

The fire struck the bow and arrow manufacturing plant at the very peak of their production. Sales had been sky rocketing due to the coming hunting season and following a change of production which had been ironed out, the plant was humming along at top speed.

The loss was fully covered by insurance, Piper said and added that all of the company's employees would be kept working on cleaning up the blaze-swept plant and equipment until production could be commenced again.

The fire centered along the rear wall of the main office and was mostly confined to the middle of the 50x170 foot plant. A heavy fiberglass ceiling insulation kept the heat down in the building which consequently burned the insulation from most of the plants electrical lines.

Everyone was agreed, however, that the steel roof construction prevented the total loss which would have been suffered had the roof been made of inflammable material.

Two large steel supporting beams and several smaller ones near the center of the blaze were buckled and twisted by the extreme temperatures. Another factor that caused heavy damage was the melting of the roof from the heat causing tar to drip down into the plant and on to equipment.

President Fred Bear who is in Wyoming bow hunting with Mrs. Bear and company vice-president, K. K. Knickerbocker of Chicago was notified by phone of the fire on Sunday.

Homemakers To Study Repairing Equipment

Project leaders of Home Demonstration Clubs in Crawford County will attend a training school on "Repair and Care of Small Electrical Equipment," Tuesday, September 18th. The meeting will be held in the City Office building in Grayling. It will begin at 10 A. M. Miss Olivia Meyer, Home Management Specialist will conduct the school.

Small electrical equipment such as toasters, coffee makers, mixers, etc., will last longer and give much better service if given the proper care. There are a few simple repairs that can be made on these pieces of equipment at home, especially on the electrical cord. In many cases failure of equipment to operate is due to a faulty cord or plug. It is important that the women making simple repairs at home know how to do the job correctly. Equipment can be damaged by a poor repair job. Major repairs should be made by a dependable electrical repairman.

The leaders will present the lesson at their local Home Demonstration club meetings in the next few weeks.

Dr. and Mrs. C. R. Keyport were hosts to members of her club and their husbands Sunday at a potluck dinner to celebrate the birthday of Mrs. Ella Wilcox which occurred on Saturday.

Vikings Open Grid Season With Gaylord Friday At 3:30

The largest number of boys ever to report for football practice are now working out preparing for the 1951 opener with Gaylord Friday at 3:30 P. M.

This years squad at the present time totals 42 boys; 7 of these are seniors, 7 juniors, 10 sophomores and 18 freshmen.

Eleven lettermen are back from last years squad. Of these eleven two were regulars last year, but another 6 have had considerable experience.

About 19 boys have been showing up well in practice and all of them may see action in the Gaylord game. They are: Warren Hatfield and John Jackson, captains; Earl Jensen, Jerry Barber, George McEvers, Duane Vincent, guards; Rex Hunter, Derek McEvers, Roger Kessler, tackles; Dale Kenyon, Skip Hanson, Clyde Weiss, ends; and Duane Worden, Pete Millikin, Bob McLain, Ted Davenport, Delbert Joslyn, Monty Malone, Dave Owen, backs.

At present very few boys are assured of starting positions. One of the team's weak points at the present time is the slowness of the guards. One of the backfield may be shifted to guard to get more speed which would cause much more competition for the tackle and guard positions.

The following were present: Lois Julia and Dorothy Duby, Barbara and Lewis Johnston, Bill Kellogg and Kathleen Joan and Bernice Morris. We had a nice time at the meeting and picnic. We had potato salad, baked beans, sandwiches, cake and lemonade. The next meeting will be held next Friday at five o'clock at Mrs. Spauldings.

Michelson Memorial Church School Notes

Miss Doris Adams, Christian Education Worker for the Saginaw Bay District, visited in all departments and in nearly all the separate classes Sunday. Already well known to the campers who were at Lake Louise, Miss Adams

soon made herself popular with the entire Sunday School.

The first fall meeting of the Church School Staff convened Sunday evening, at which time plans for the fall program were formulated. At this meeting, definite plans were made for a separate Senior Youth Department which will meet in the church balcony, directed by Mr. and Mrs. Ernest Larson and Mrs. Robert Funk. This department will begin with the tenth grade and include all older youth. Miss Adams commented on the work of the school as she had seen it in operation, and made many valuable suggestions.

Promotion will be held in the church auditorium on Sunday, September 30. The fall program will start with a family night potluck and achievement program on Thursday, October 4, and October 7 will be Rally Sunday.

F-3 Express hustles milk over Michigan country roads, demonstrated its low running cost in the nationwide Ford Truck Economy Run.

C. W. GILMAN in the dairy business 20 years, operates three Ford Trucks. He says: "Ford Trucks save me money every mile. Ford Truck power gets me there faster too."

"I move milk in a hurry for less than 2 1/2¢ a mile!"

"I figure that my Ford Truck with its Power Pilot gas savor has helped cut my running costs by 7%," says C. W. Gilman.

The Tecumseh Dairy Ford was one of 5,500 trucks that took part in the nationwide, 60-million-mile Ford Truck Economy Run. Daily running-cost records were kept.

Federal Aid Farce Exposed

Indiana's 85th General Assembly recently sent a remarkable message to the Congress of the United States. It said, in part, "We have decided that there is no such thing as 'Federal aid.' We know there is no wealth to tax that is not already within the boundaries of the 48 states. So we propose henceforth to tax ourselves and take care of ourselves."

"The people of Indiana resent the encroachment of the Federal government into the fields of education, highways, employment, agriculture, medicine, banking, welfare and civic projects. They hold that these activities are the responsibilities of the state, the local communities, or private individuals, and that Federal participation in these fields, both financial and managerial, should be abandoned throughout this nation of ours."

That message comes like a breath of fresh mountain air in an era when most of the chambers of commerce and other such civic organizations seem to be primarily involved in trying to get more and more money out of the Federal treasury, or more appropriately, the taxpayer's pocket. Moreover, it is a message which is based squarely on what we used to consider fundamental American ideals and principles. Yet a whole generation has grown up which never lived under anything except the system of Federal grants and doles which began with the depression and has continued, at an ever accelerating pitch, ever since.

This is the system which has destroyed states' rights and undermined the independence of the people. It is the system which has taxed us to the point of confiscation, and has made the tax bill one of the largest items in every family budget. It is the system which has created huge government deficits, even in times when business was booming and tax revenues were at record peaks. It is the system which will ruin us if continued.

The splendid message of Indiana's General Assembly should be echoed in every state.

What are the Dollar
Signs Saying?

MAYBE you've noticed that dollars don't seem to talk as loud as they used to in a lot of places.

But you ought to hear what they say about this Buick.

They say—here's the big thrill—big mileage—big power of a valve-in-head Fireball Engine—eight-cylinder performance at the price you'll pay for most sixes.

They say—here are size and room and comfort that are hard to match at anywhere near the price tag this Buick SPECIAL is wearing.

They say—here are such things as an oil filter, air cleaner, vacuum booster, built-in summer ventilation—not as "extras" but yours at no extra charge.

They say that "smart buy's Buick"—by a wide measure.

But a smart buyer will also let this dashing

darling speak for itself.

He'll take the wheel and feel how it snugs to the road on turns—holds its course on the highway with big-car assurance.

He'll touch off the power of its Fireball Engine and get firsthand the lift of its nimble response.

And he'll find out how coil springs on every wheel level out what he thought were bumpy roads.

From where I sit... by Joe Marsh

Easy Makes His "Cat"
Tread Lightly

Driving home on Three Ponds Road yesterday, I was flagged down by Easy Roberts' boy Skeeter. "Take it slow," he advised. "Dad's crossing this road with our tractor, just beyond the bend."

Around the curve I saw why Skeeter stopped me. Easy had laid two rows of old truck tires across the road, and was driving his new "Cat" tractor over them!

"More trouble this way," Easy explains, "but it does keep those tank tracks from tearing up the asphalt when I have to cross over to our other fields. After all, the

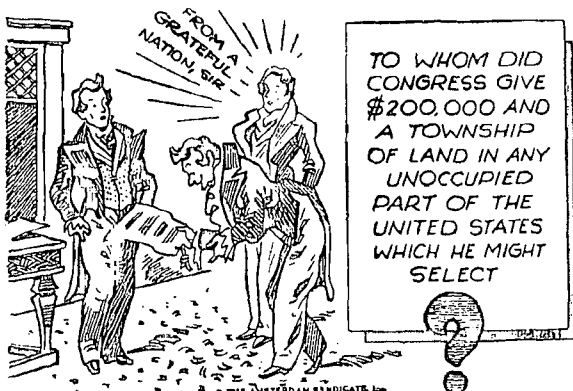

roads belong to all of us and I guess I'd get mad if someone else chewed them up."

From where I sit, Easy is my kind of citizen. He doesn't just give democracy lip service. He honestly believes it's his duty to consider the other fellow's interests. Whether it's the right to use the public highways or the right to enjoy an occasional glass of beer, Easy's out to protect his neighbor's "right of way."

State political policies and cam-
 paign material is being molded
 behind the scenes by both Demo-
 cratic and Republican State Cen-
 tral Committees. But little has
 been said for the press.

At a Democratic party confer-
 ence at Mackinac Island "whole
 hearted support" was pledged to
 President Truman for re-election
 who has not yet declared him-
 self in the race—the biggest out-
 ward political display in recent
 weeks.

At that same conference Vice
 President Barkley waxed elo-
 quent. Said the Veep: "Acheson
 has been hounded by men un-
 worthy to lace his shoes. Truman
 will win again. No one has work-
 ed as hard as Harry Truman to
 prevent World War III. If the
 United Nations fails all hope for
 peace is gone. Between now and
 next year's election every gar-
 bage can in the nation will be
 overturned to find something to
 use against the administration.
 World War II might have been
 prevented if the League of Na-
 tions had been stronger. And
 through Democratic efforts in the
 last 19 years the nation has been
 made economically strong enough
 to withstand defense spending."
 The Veep has expressed his
 willingness, at 74, to run again.

Arthur Summerfield, Republi-
 can national committeeman from
 Michigan, was very angry. At the
 Democratic conference, Gov. Wil-
 liams had referred to him as a
 representative of "special inter-
 est." Summerfield called the
 Mackinac Island conference a
 "hoorah for Truman-Moody-Wil-
 liams affair" and added the Dem-
 ocrats "don't care about the minks
 stinks and pinks in Washington
 which have turned our national
 government into a farce."

Did you know—Michigan with
 4.23 percent of the nation's popu-
 lation paid 8.24 percent of total
 U. S. tax payments? Combined
 efforts of Michigan, California,
 Illinois, New York, Ohio and
 Pennsylvania constitute one-half
 the nation's tax income?

An iron and steel shortage has
 been predicted "before many
 months" by Arthur J. Fushman,
 chairman of the Detroit Scrap
 Mobilization Committee.

At the end of the fiscal year
 (June 30, 1951) Michigan was
 \$41,100,000 in the red. June 30,
 1950, the deficit was \$23,311,231.
 The last fiscal year was the fourth
 in which expenditures from the
 general fund exceeded revenues.
 In 1948 there was a surplus of
 \$33,000,000 in the general fund.
 Operating expenses for 1950-51
 were about \$475,500,000 compared
 to \$443,200,000 the previous year.
 Most of the increase was in pay-
 ments benefiting local units of
 government, Controller Robert F.
 Steadman said.

The Conservation Department
 wants red pine and white spruce
 cones to replenish state nursery
 seeds. District foresters will pay

\$5 a bushel for red pine and \$6 a
 bushel for spruce. Cones must be
 ripe.

Adulteration of sausage and
 hamburger in Michigan is increas-
 ing alarmingly, according to the
 State Department of Agriculture.
 Twelve packers have been taken
 to court; 13 cases pending yet.
 Packers are inserting too much
 fat, milk, cereals and vegetable
 flour—a result of meat shortages
 and climbing prices.

A large—and pertinent—piece
 of Michigan's moveable highway
 will be in operation by the time
 deer hunting season opens. The
 S. S. Vacationland will begin op-
 erating at the Straits. The com-
 mercial ferry and ice breaker
 will

carry 150 cars. Cost, \$4,850,000.

Michigan Christmas trees are
 exempt from price control. After
 they are cut they come under the
 classification of greens for decora-
 tive purposes—non freezable.

This year continues as an "av-
 erage" polo year—if such a thing
 is possible. From 100-125 new
 cases are reported each week in
 the state.

The Michigan Education asso-
 ciation has complained that
 "irresponsible" attacks are being
 made on the school system by
 various national "front groups"
 with assorted selfish motives.
 MEA says they are trying to dis-
 credit the schools, reduce finan-
 cial support and curtail programs.

No names or groups were men-
 tioned.

Some 100 farmers in Livingston
 county have organized to post
 their property against any hunt-
 ing whatsoever in protest against
 deer hunting with rifles. They
 even have ordered no hunting
 signs. There was talk of patrol-
 ling their lands.

Out of Washington: A new car
 shortage is likely soon.

Out of Detroit: A small increase
 in production noted—no foresee-
 able shortage yet.

 sing 2,675 workers in two strikes

Grange Notes -

The regular business meeting of the Grange was held Thursday evening Sept. 6th at the hall. Plans for our coming celebration of the fiftieth anniversary of the Crawford County Grange were discussed.

There will be a crew of men at the hall Sept. 12th to change the partition in the kitchen and install the new electric stove and water heater. Any of you men who have time please come and

help us we have such a short time to get this work done. The women will meet on the 13th to clean the hall. We will need all the help we can get. The Home Economics committee will be around soliciting chickens, vegetables, pies, and other articles of food for the dinner so please be ready to donate what you can.

This celebration will take place Saturday, Sept. 29th on our regular Booster night and will start with a chicken dinner to be served promptly at six-thirty, for the benefit of those working until six o'clock. There will be displays of farm produce, fancy work, flowers, hand work or any kind of handicraft anyone has to display, also anyone wishing to bring something to display is welcome to do so. There will be some displays from other counties that have been used at Fairs. Immediately following dinner there will be a program in the upper hall with two State Grange officers present.

Tickets for the dinner will be

on sale within a few days and will remain on sale until Monday, September 24th. But there will be ONLY one hundred tickets sold so be sure to get your tickets early or you may be left out of the dinner. The evening program will open at eight o'clock and will be free to everyone.

Remember an old fashioned Grange chicken dinner served family style for only \$1.75 for adults and \$1.00 for children under twelve. Ticket chairman is Flora Skingley.

I would like the Grange members to notice the following poem.

DO YOU JUST BELONG?

Are you an active member,
The kind that would be missed?
Or are you just contented
That your name is on the list?

Do you attend the meetings
And mingle with the flock?
Or do you stay at home
And criticize and knock?

Do you ever go to visit
A member that is sick?

Or leave the work to just a few
And talk about a "clique"?
There's quite a program scheduled
That I'm sure you've heard about.
We sure will all appreciate it
If you'll come and help as out.
Think it over Brother,
YOU know right from wrong:
Are YOU an active member--
Or do you just belong?

Three Pay Fines For Illegal Hunting

Three men were fined before Justice Larry Galehouse last Wednesday afternoon after pleading guilty to hunting deer out of season. They were arrested about 11:45 P. M. Tuesday night by Conservation officers Clarence Roberts and Forrest Annis on the North Downriver Road.

Robert Callard of Oakley, Carl Hanifer of Owosso and Sidney Elliott of Grayling were all assessed fines of \$75 and costs of \$7.50 by Justice Galehouse. Elliott lost a 22 caliber rifle and Hanifer, a

revolver and a hand electric lantern as well by confiscation by the order of the Justice Court.

Justice Announces New Truck Overload Penalties

A new state law amending the previous one on overloaded trucks now allows a police officer or any authorized Michigan highway department agent to stop a truck for weighing if he has reason to believe that it is overloaded. Justice Larry Galehouse said today. The police officer or state agent can force the truck to be placed in some suitable place until the excess load is removed if it is found to be overloaded, he said.

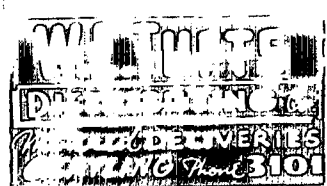

The new amendment provides stiffer penalties. Justice Galehouse pointed out. The new amendment provides for a fine not exceed \$100 and a 2c per pound charge for all overload in excess of 2,000 pounds or less; 4c for every pound over 2,000 but not over 3,000; 6c per pound for all over 3,000 but not over 4,000 pounds overload; 8c per pound when the excess is over 4,000 but not over 5,000 pounds and 10c per pound for each pound of excess when such excess is over 5,000 pound overload, Justice Galehouse said.

(Too Late For Last Week)

Our Fourth Annual Flower Show held on Friday P. M. was not well attended. The flowers were lovely. We enjoyed meeting Miss Carris the new home demonstration agent for Carrowford County. Mr. Chapman of East Lansing gave a very interesting and informative talk of the origin of some of our well known flowers. Everyone had all the apple pie they could eat so in spite of the rain those who attended were glad they did.

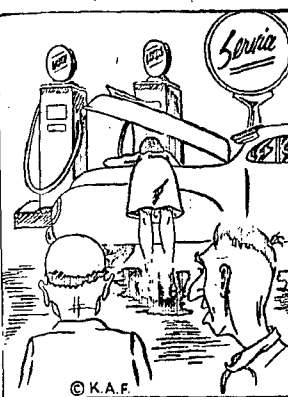

Roger Evans of Toledo, Ohio and Bill Evans of Mio visited their aunt Mrs. Pearl Babbitt on Thursday.

Mary Redman spent last week visiting an uncle in Petoskey.

Miss Grace Woodburn left Sunday for Grand Rapids to be ready for teaching in the new school year.

Curt Feldhauser spent last week visiting his cousins in Roscommon. Among those attending the fair at Traverse City last week were the Clyde Smiths, Ernest Winston's, Henry Verlinde's, Roland Wilcox's, Roy Papenfus, Ivan Robbins and Chas. O'Connell.

Lecture On Prayer

A forthcoming Christian Science lecture should prove interesting to many members of this community since it deals with the subject of prayer. What is prayer? How shall we pray effectively? When are our prayers answered? These and other questions will be discussed by Oscar Graham Peck of Kansas City, Missouri, in a lecture entitled "Christian Science: The Religion of Ceaseless Prayer".

Mr. Peck served as Christian Science Welfare Worker during World War I and has been a member of the Board of Lectureship of The First Church of Christ, Scientist, in Boston, Massachusetts, for a number of years.

He will speak in Traverse City in Central High School Auditorium, corner Seventh and Pine, at 8:15 Thursday evening, September 13, 1951.

The lecture is free, and every one who is interested is invited.
